

## FIRE PROTECTION CUSTOMER:

A list of FIRE PROTECTION COMPANIES equipped to detect and isolate leaks in fire systems is provided as a helpful guide to assist in the repair of your fire system.

The Birmingham Water Works Board in no way endorses the quality or performance of work provided by these companies, and in no form is this list given as complete or approved. Should you elect to contact one of these companies or any other not provided here, we suggest that you require references for work performed.

These companies requested that they be listed and contact telephone numbers are included:
